ConstruPilot

CONSTRUCTION SOFTWARE · FRANCE & PORTUGAL

From the architect's bill of quantities to final account

Pricing, take-offs, quotes, site tracking and progress invoicing in one tool, built for tradespeople and construction SMEs.

Today

- ✕ Quotes typed at night in spreadsheets
- ✕ Take-offs redone for every plan revision
- ✕ Architect's bill of quantities priced line by line
- ✕ Deposits lost when the progress claim is due
- ✕ Reminders and retentions forgotten

With ConstruPilot

- ✓ A price library that grows with every job
- ✓ Measurements taken directly on the PDF or DWG
- ✓ Bill read, trades detected, prices proposed
- ✓ Deposit actually received deducted automatically
- ✓ 7-day reminder, final account in one click

THE FULL CHAIN

Six steps, one single base

Final account

WHAT YOU DO WITH CONSTRUPILOT

Entered once, used all the way to final payment

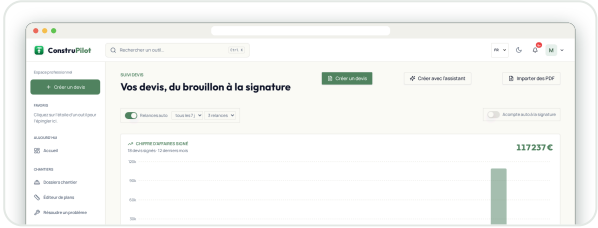

Price the architect's bill of quantities

Several bills and specifications
Multi-sheet Excel bills and specifications in one study.

Your prices first, AI second
Trades detected; AI only fills unknown lines, with every source tracked.

Plain-language instructions
"Don't price the tiling, 12 % margin" plus alerts on missing items.

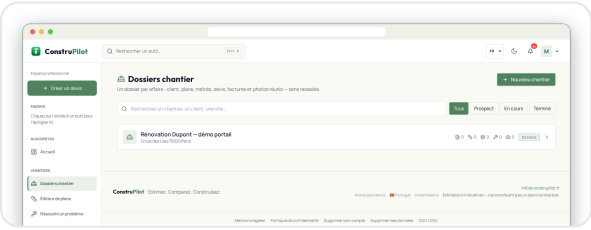

Measure on the plan, get signed fast

Take-offs on the plan
PDF or DWG import, scaling, lengths, areas, exportable quantities.

Quotes in your brand
3 layouts, your logo, detailed descriptions, all VAT rates.

Frictionless signature
QR code, online or on-site signature, automatic 7-day reminder.

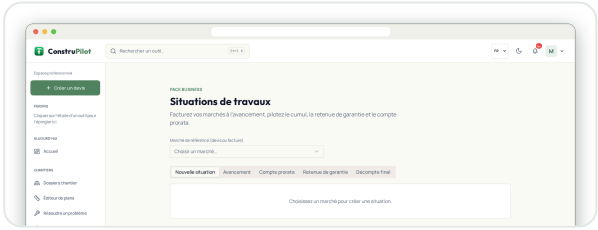

Track the site and the client

Site file
Schedule, tasks, before / after photos, snags, reports.

Secure client portal
Progress, messages, documents; each client only sees their own job.

Subcontractors and suppliers
Records, tenders per trade, procurement, team time tracking.

Invoice without losing a cent

Deposit on signature
The deposit invoice is created as soon as the quote is signed.

Progress claims
Line-by-line progress, retention, payment certificate.

Received deposit deducted
Pro rata, in full or a chosen amount: no more allocation errors.

Invoicing option €5 / month, included in Pro Business.

AI renders
3D image €5 · 3D video €10

API
Starter €99 · Business €299 · Scale €999 / month

7-day free trial on paid plans, no commitment. Prices as of 1 Nov 2026; the pricing page on construpilot.fr prevails.

An AI assistant that works with you

Technical answers
Standards, methods, mixes, with your own documents in context.

Assisted writing
Letters, reports and quote descriptions.

AI proposes, you decide
Every price stays editable and its source is tracked.

Dedicated Android and iOS apps

Site
For the company: quotes, photos, snags, progress, on-site signature.

Team
For crews: today's tasks, time tracking, site notes and photos.

Homeowners
For the end client: estimate, job tracking, documents.

Your data stays yours

Hosted in the European Union
Secure sign-in and strict data isolation between companies.

No data resale
Your prices, clients and documents never leave your account.

Self-service deletion
Account and data can be deleted at any time from the app.

Get started in 3 steps

1. Create your account on construpilot.fr
2. Import your price library, or let it build itself
3. Upload your first bill of quantities or create your first quote
